# YOUR GUIDE TO COMMUNITY CENTRE HIRE

# WELCOME

## to our new Community Centres Brochure

Causeway Coast and Glens Borough Council are responsible for a number of Community centres across the Council area. The Community centres exist to provide for the social, recreational and sporting needs of the community. The Community centres provide the space for a broad range of community initiatives.

In this brochure, we have compiled a simple guide to the community centres that are owned and operated by Council, and how you book them and the key person that can help guide you with booking.

The scope of community activity that takes place across the entire Borough in these community centres is inspiring, and helps build healthy resilient communities. Playgroups, older people's groups, men and women's groups, fitness classes, Community Association Activities, lifelong learning and other recreations all take place.

Community centres are also available to hire, and are equipped with modern kitchen facilities, so if you are considering a birthday party, christening or other celebration event, your local community centre can offer a great value for money venue choice for all the family.

.....

Kitchen facilities are available in all the community centres – some are basic facilities suitable for making tea and coffee for meetings; others have kitchen facilities that are suitable for catering for parties etc. Please check when making your booking in relation to your catering requirements.
