

# PEACEPLUS

JULY 2025

## Delivering monthly!

**Causeway Coast & Glens**  
**Borough Council: PEACEPLUS**  
Newsletter

## Volume: 04

PEACEPLUS, as a European Union funding programme designed to support Peace & Prosperity across Northern Ireland and the Border Counties of Ireland, will support a range of initiatives designed to promote reconciliation, build trust, and foster understanding between communities.

From beginning to end, the participants, delivery partners, and the PEACEPLUS Partnership will collaborate to nurture strong relationships and help shape a more harmonious, prosperous, and hopeful future for all.

As we move forward, our most recent project to kick off is the **'Nature & Environment'** and we look forward to getting more updates to you!

**Thank you for your continued support and commitment!**

## Causeway Coast & Glens PEACEPLUS Programme

## Nature & Environment

The Programme will deliver understanding and learning about our local natural environment and the many components which make it special.

Building Peaceful and Thriving Communities.

The Programme aim would be that people would learn new ways to live alongside the natural environment, whilst developing new ideas and practices on how to keep it best protected through sustainable practices and local initiatives, to include the important role that farmers play in our environment.

The Programme will support the transfer of knowledge and practical information that will help educate local people about how to improve the local natural environment, whilst also learning about sustainability and the action we can take to help to ensure waste is minimised.

This programme will invite 240 participants and we will let you know how you can get involved in the future features.

## THE PEACEPLUS PARTNERSHIP

The PEACEPLUS Partnership visited the site of the capital project at Mountsandel to learn how local awareness can be raised about the symbolic and significant nature of the Stone Age site, the history and heritage that surrounds it, and our interaction with that environment

Mountsandel Wood contains one of the earliest known settlements of humans on the island of Ireland dating to between 7600 and 7900BC, where Stone Age hunters camped to fish salmon in the natural weir.

The earthen fort is built with an imposing command of the river and is thought to date back to Anglo-Norman times.

Upcoming Launch:

**Women's Development  
Programme - is  
launching on the 23<sup>rd</sup>  
July. Follow the QR code  
on the poster to register!**
