Option preferences.

Out of all the options listed, respondents selected option 1 as their most preferred option.

The findings of the consultation are summarised within the attached report – see appendix 3 (circulated).

618 respondents completed the survey questionnaire (table circulated).

Rathlin Community Development Community Association contacted the Director of Environmental Services via email with some concerns they had and requested that these be taken into consideration when Council deliberate on

the results of the survey and any subsequent proposals – the correspondence can be viewed at appendix 4 (circulated).

A recently Council commissioned draft Traffic and Parking survey across the Connected Causeway area conducted by AECOM on Friday 16th, Saturday 17th and Sunday 18th August 2024, showed that in Ballycastle there was an under provision of parking spaces at peak times at the Sea front/Harbour/Ferry Terminal car parks.

Recommendation

It is recommended that the Environmental Services Committee considers the findings of the public consultation (attached) and advise which charging option (if any) they wish to recommend to Council.

Proposed by Councillor Bateson

Seconded by Councillor MA McKillop

- To recommend that Council maintain the status quo of no car parking charges at West Bay nor Ballycastle Seafront. This is following the vast feedback from the consultation which was overwhelmingly opposed to the charges as well as the complex issues surrounding the Island life on Rathlin, the marina and the overall layout of the areas.

Councillor Huggins requested a Recorded Vote.

Councillor Holmes stated that the results of the public consultation were as expected as no one wants the charges. Council needs to spend money in this area and Council needs to raise money in order to spend it; Ballycastle needs to shoulder its share of the car parking charges alongside the other big towns in the Borough. Councillor Holmes reflected on his experiences of paying for car parking.

Councillor Kane stated that the rates were struck last year based on this income. Councillor Kane stated that options and considerations were discussed prior to the meeting and that Elected Members are not ready to make a decision, that this needs to be part of the rate setting process.

Councillor Huggins stated that the car parking charges need to be fair across the Borough, that Rathlin Island has been considered and dispensation is in the options provided. Councillor Huggins stated there should not be a difference made for Ballycastle, she stated the proposed charges are seasonal and there are towns in the Borough where there are car parking fees throughout the year. Councillor Huggins stated that Committees are the place for making decisions.

The Chair put the motion to the vote.
