David Jackson

CEO Causeway Coast and Glens Borough Council

Date: 16 January 2025

Dear Mr Jackson,

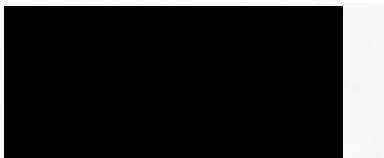

Re: Ballycastle parking concessions

I understand a proposal to full council from the Environmental Services Committee would see concessions in the seafront car park at Ballycastle for boat owners and Rathlin residents/workers, which is understandable, but no concessions for seafront business owners or residents. How is this either proportionate or fair?

It seems to me that equitable treatment would require extension of the concessions to the above identified groups, who are equally affected as those for whom concessions are presently proposed.

Please place this letter before the Council.

Yours sincerely,

J H Allister KC
