1.1 Background

Department for communities (DfC) requires Council to record and publish statistics regarding the payment of supplier invoices with specific reference to two distinct measures namely invoices paid within 10 working days and invoices paid within 30 calendar days.

1.2 Detail

These figures are published on a quarterly basis by DfC with Councils required to do likewise. The purpose of the statistics is to encourage Councils to support businesses especially those local and/or small businesses for whom cash flow is of vital importance to their continued survival. In addition, as part of Council's performance improvement plan for this year the payment of our suppliers has been identified as one of the performance improvement objectives with a target of 90% of suppliers being paid within 30 calendar days. The tables below detail Council's performance since April 2023 the latest data being for quarter 3 of 25/26 year, up to and including end of November 2025.

1.3 Analysis

The statistics will be continually monitored to ensure the performance levels are maintained and where possible improved. Council's self-imposed target remains at 90% of invoices being paid within 30 days. During November 91.56% (October 88.04%) of invoices were paid within 30 days. This is a good improvement in performance taking us back above our 90% target, finance staff are continuing their efforts to maintain and improve this level of performance.
