**Subject:** House at Craigahulliar Landfill

Dear Sir / Madam

I think your reference is LA01/2023/0418/F

I wish to question a planning application at Craigahulliar.for the rebuilding of ruins into 2 houses

It would seem that it is being claimed that the site was a Blacksmiths forge, used in connection with the Craigahulliar quarry.

Folk who worked at Craigahulliar quarry and later at the block works have no recollection of this use.

There was a blacksmith forge and cottage some way further down the Ballymacrea Road. but it was demolished and a new house built in the field beside it years ago, this was known as Craigahullair Forge, maybe this is where the misunderstanding has come from ?

It would also seem the applicant is linking it to the management of the Craigahulliar Caravan park, as they no longer work / resigned last year from the company, Blairs Caravans Ltd, how is this relevant ?

Would a dwelling so close to the landfill not be a health risk ?

I look forward to hearing from you

Yours sincerely  
Anne
