Good Morning

Thanks for the advice

Unfortunately the addendum does not reference:

(a) That I (and another adjacent landowner with a shared boundary of the application site) did not receive the required neighbour notification.

(b) That the NI Water consultation has expired, that seemingly no specifications of the proposed cesspool has been submitted for consideration and that the proposed location, is contrary to regulations as it is immediately adjacent to a number of the units

(c) That the application map is incorrect

(d) That no Bio security measures have been included in the application to protect the adjacent livestock

We have been advised that it is likely that the active badger sets will relocate to the adjacent farmland due to the increased human activity and that effective badger proof fencing should be installed as a minimum

A recent independent report. published last week estimates that the cost of bTB (Carried by Badgers) is @£96M in Northern Ireland

<https://www.ufuni.org/bovine-tb-costing-farmers-over-96-million-per-year-according-to-new-report/>

I would request that these are included in the Addendum

Regards
David

David

I refer to the Addendum to the Planning Committee Report which is now available to view on the planning portal. The Addendum recommends deferral of the application to allow further consideration of the further information relating to the cesspool and objector concerns.

The application is scheduled to go to the Planning Committee on 22 April 2026 and the Planning Committee Members will make the decision on whether to defer the application.

I am aware you have requested speaking rights on this application and you should make the decision on whether you attend the meeting.

Regards Laura
