Dear Planning

Ref: LA01/2024/1187/F

I wish to object to this application on the following grounds:

I had been advised that the application for this proposal had been withdrawn, copy correspondence attached.

I have not received neighbour notification for this amended application despite sharing @125m boundary with the application site

I have concerns that this is an attempt to avoid due consideration by neighbours

The application site includes land which is not in the ownership or control of the applicant (This was previously brought to the attention during the processing of the previous application and has not been corrected in this subsequent application). The ownership certificate is therefore invalid as it contains false information (I understand that this is an offence)

It is contrary to a number of recent, ratified Council decisions regarding this site

There has been no assessment of the adverse impact on adjacent applications, both recently approved and under consideration by the PACNI

It is contrary to the commitments of the Council (CBC) to revert this site to an eco park once the landfill site was closed

Due to these issues, I trust that this application will be refused

Regards
David Alexander
