CTY 8 States: An exception will be permitted for the development of a small gap site sufficient only to accommodate up to a maximum of two houses within an otherwise substantial and continuously built-up frontage and provided this respects the existing development pattern along the frontage in terms of size, scale, siting and plot size and meets other planning and environmental requirements.

Frontage and Plot Size

- Where a gap frontage is longer than the average ribbon plot width the gap may be unsuitable for infill.
- When a gap is more than twice the length of the average plot width in the adjoining ribbon it is often unsuitable for infill with two new plots
