Subject: Public Consultation Launch

Good afternoon,

Communities Minister Gordon Lyons, DAERA Minister Andrew Muir and Infrastructure Minister Liz Kimmins today announced a public consultation seeking views on proposals for a new approach to delivering physical regeneration in our villages, towns and city centres.

Shaping Sustainable Places has been developed by the Department for Communities in collaboration with the Department for Infrastructure and Department of Agriculture, Environment and Rural Affairs. It articulates a vision for maximising the limited budgets available for regeneration through focused, strategically aligned projects.

The proposed Programme would seek to deliver place-based regeneration and infrastructure interventions which would be developed by local councils. A budget of £150million, with each Department contributing £50million over a ten-year period, is proposed and the final programme will require Executive approval.

As a valued stakeholder we would encourage you to consider submitting a response to the consultation using the link below.

[Consultation on Shaping Sustainable Places | Department for Communities](#)

We would appreciate if you could also share the consultation with any other partners or colleagues you think would be interested in contributing.
