1.1 Background

Department for communities (DfC) requires Council to record and publish statistics regarding the payment of supplier invoices with specific reference to two distinct measures namely invoices paid within 10 working days and invoices paid within 30 calendar days.

1.2 Detail

These figures are published on a quarterly basis by DfC with Councils required to do likewise. The purpose of the statistics is to encourage Councils to support businesses especially those local and/or small businesses for whom cash flow is of vital importance to their continued survival. In addition, as part of Council's performance improvement plan for this year the payment of our suppliers has been identified as one of the performance improvement objectives with a target of 90% of suppliers being paid within 30 calendar days. The tables below detail Council's performance since April 2023 the latest data being for quarter 2 of 25/26 year, up to and including end of August 2025.

1.3 Analysis

The statistics will be continually monitored to ensure the performance levels are maintained and where possible improved. Council's self-imposed target remains at 90% of invoices being paid within 30 days. During August 84.77% (July 90.05%) of invoices were paid within 30 days. This drop in performance is disappointing and finance staff are looking into possible explanations with a view to restoring previous levels, especially given our year to date performance is well short of last year.
