1.0 Purpose of Report

- 1.1 To present the Council's Local Development Plan (LDP) Project Management Team (PMT) Annual Monitoring Report (AMR) for the 2024/25 reporting period.

2.0 Background

- 2.1 The Council's Development Plan team is currently preparing an LDP for the Borough. The Council must provide a 15-year plan framework to support the environmental, economic and social needs of the Borough in line with regional strategies and policies, and with the objective of furthering sustainable development¹.
- 2.2 The LDP is prepared in three stages, as follows:
- Preferred Options Paper (POP);
 - Plan Strategy (PS); and
 - Local Policies Plan (LPP).
- 2.3 We are currently preparing a draft Plan Strategy (dPS).
- 2.4 The LDP is subject to a Sustainability Appraisal (SA) incorporating a Strategic Environmental Assessment (SEA) to assess any potential environmental, economic or social impacts of the Plan against a range of sustainability objectives. This iterative process is carried out at all three stages of LDP preparation.
- 2.5 In line with the Council's published 'Statement of Community Involvement in Planning' (SCI) the PMT was established, comprising senior council officers, plan manager and key government departments, to facilitate key consultee co-operation in the plan-making process (see TOR at Appendix 1).
- 2.6 The invite to participate in the PMT also extends to all party leads (or a nominee) and Council Directors. The objective is to secure expert input (in an advisory role) into the plan making process.
- 2.7 At Preferred Options Paper (POP) stage the PMT provided information and expert advice on a range of key strategic planning issues that the LDP should seek to address. At draft Plan Strategy stage the team provides comment on our LDP draft policy approach covering a range of topic areas.
- 2.8 The AMR is set out at Appendix 2 (attached).

¹ "Sustainable development" was defined in the World Commission on Environment and Development's 1987 Brundtland report 'Our Common Future' as 'development that meets the needs of the present without compromising the ability of future generations to meet their own needs'.

- 2.9 It is important to note that Northern Ireland has a new LDP process, and although it was anticipated that the new regime would take some time to settle down it has been a much steeper learning curve than was originally anticipated, for all of the 11 councils (both officers and elected members) as well as the key consultees and stakeholders, and the Department for Infrastructure (DfI) in its oversight role.
- 2.10 DfI has, during the LDP process to date, issued a suite of guidance documents (including revisions) which the Council has taken account of during its LDP preparation. However, the Climate Change Act (NI) 2022 and Programme for Government (PFG) are also now a consideration, as will any further regional policy and guidance updates (including the Marine Plan for NI) as we continue through this process.
