14. Notice of Motion proposed by Councillor Ciaran McQuillan and seconded by Councillor Leanne Peacock referred from Council Meeting held Tuesday 06 October 2026:

“Motion: Safeguarding Local Digital Designers and Artists from AI Displacement

That this Council recognises the vital contribution of digital designers, artists, and creative professionals to the cultural, economic, and community life of the Causeway Coast and Glens area.

This Council further notes growing concerns within the creative sector regarding the rapid and unregulated use of artificial intelligence in design, illustration, branding, and digital content production, which risks undermining local employment, devaluing creative skills, and eroding opportunities for emerging artists.

Therefore, this Council commits to:

- Prioritising the use of locally produced human created digital design and artwork in all Council communications, branding, promotional materials, and commissioned projects.*
- Developing guidance to ensure AI generated content does not replace professional designers or artists within Council procurement processes.*
- Engaging with local creative practitioners to understand the challenges posed by AI and to support sustainable, fair employment within the sector.*
- Advocating for ethical, transparent, and responsible use of AI technologies across the council area, ensuring they complement rather than replace human creativity.”*
