

# Addendum LA01/2016/0061/F Full Application

## Update

The agent commented on 3 of the conditions proposed and based on these discussions it has been agreed that the following conditions will be amended from:

- 10.17 There shall be no micrositing of any of the turbines  
Reason: To preserve amenity, protect biodiversity and to prevent radio or TV interference
- 10.18A Habitat and Species Management Plan shall be agreed with the Council prior to any works on site in order to ensure the protection of species of conservation concern, (snipe, meadow pipit and skylark), and priority habitats are committed to, and suitable plans for restoration and enhancement are included.  
Reason: To protect biodiversity within the designated ASSIs and SACs
- 10.19 Ornithological monitoring of the site and the operational Dunbeg Wind Farm should be carried out post construction in years 1, 2, 3, 5, 10, 15, 20 and 25 and then as agreed with the Council in order to monitor the impacts of the development on the ornithological interest of the site. All reports shall be submitted to the Council when completed.  
Reason: To protect biodiversity within the designated SPA

To amended conditions:

- 10.17 There shall be no micrositing **of turbine 15**.  
Reason: To preserve amenity, protect biodiversity and to prevent radio or TV interference
- 10.18A Habitat and Species Management Plan shall be agreed with the Council prior to any works on site in order to ensure the protection

of species of conservation concern, (snipe, meadow pipit and skylark), and priority habitats are committed to, and suitable plans for restoration and enhancement are included.

**Reason: To protect species of conservation concern**

10.19 Ornithological monitoring of the site and the operational Dunbeg Wind Farm should be carried out post construction in years 1, 2, 3, 5, 10, 15, 20 and 25 and then as agreed with the Council in order to monitor the impacts of the development on the ornithological interest of the site. All reports shall be submitted to the Council when completed.

**Reason: To protect species of conservation concern**

### **Recommendation**

That the Committee agrees with the amended proposed conditions.
