Hi Laura ,

Please see attached photos if you could circulate , I have requested a postponement given the councils previous refusal 22-10-26 ,the E Hudson, J Lundy and Muldoon meeting 21-01-26 and the lack of notice to prepare for meeting / speaking rights .

I must also advise I never received any letter in or about the 18 February 26 or I would have in all likelihood engaged professional advise .I am less than happy with Council printing the Muldoon comment in relation to the applicants personal circumstances ..we all have things going on !! this whole saga has plagued us for years , sleepless nights , construction noise , potential asbestos ramifications , I could go on and on the applicant didn't have to endure what we had to endure for years during the construction debacle .

Regards Brendan
