

I would like the planning committee to postpone judgement at this particular juncture as we have not been given enough time to prepare for the meeting tomorrow as I have only been made aware of recent developments today .It is not lost on me or I'm sure everyone else who consults the portal very important documentation / information was only added to the portal over the last few days particularly the meeting held on the 21-01-26 . Bearing in mind the committees refusal as outlined in the Planning Committee Report 22-10-25. I would hope planning officials would afford me the same rights as the applicants previous [REDACTED] representative MKA who cancelled the October meeting at the 11th hour .
