

INNOVATE US

The DfE InnovateUs programme provides mentoring for an innovation activity leading to the development of a new product, process or service.

Programme Detail

InnovateUs provides between 10-60 hours of training to companies with fewer than 50 employees. This funded programme is also eligible to social enterprises.

The College offer support to all industries and we are happy to discuss your innovation needs by arranging a meeting with you and our industry specialists

What we can do to help

We are happy to discuss and support any innovative ideas. You can arrange a meeting today to discuss your innovative mentoring requirements with one of our Business Engagement Officers. Upon completing a short skills audit, a bespoke training plan will be created for your company to help achieve innovation.

Examples of areas which could qualify for funding:

- Food product development
- New product design (all sectors)
- Product development and prototyping
- Computing and IT support
- Tourism Innovation
- Digital technologies.

Northern Regional College is committed to supporting entrepreneurs and micro/small businesses to innovate their products, processes or services, throughout Northern Ireland. Across our four campuses, we have dedicated and experienced consultants who can support individuals and businesses on their innovation journeys. From engineering to manufacturing, digital to hospitality, we have expertise in a wide range of industries and markets that will suit your needs.

Innovation definition:

“The process of creating and implementing ideas for new products, services or processes to create value in your business.” (Innovate NI)
